PROFESSIONAL SUMMARY

Information Technology graduate specializing in Business Analytics with experience in technical support, with a foundation in data analysis and reporting. Proficient in Microsoft Excel, SQL, MySQL, Power BI, and Python for dashboard development and business reporting. Strong analytical, troubleshooting, and communication skills with the ability to collaborate in fast-paced environments.

WORK EXPERIENCE

IT Technical Support Intern

February 2026 – May 2026

Commission on Elections – Tanauan City Branch

- Provided technical support by troubleshooting hardware, software, and system issues, ensuring timely resolution and minimal downtime.
- Assisted end users by resolving technical concerns and providing basic system support to ensure smooth daily operations.
- Performed accurate data entry and record encoding while maintaining data integrity and confidentiality.

PROJECTS

SWIFTRENT: Web & Mobile-Based Car Rental Platform – Capstone Project

- Developed a web and mobile-based peer-to-peer car rental platform connecting vehicle owners with renters for short-term vehicle rentals.
- Designed the UI/UX of the platform, creating user-friendly interfaces and workflows for renters, vehicle owners, and administrators.
- Contributed to the planning and documentation of system features, requirements, processes, and project specifications throughout the capstone development.
- Designed analytics features for rental activity, pricing and revenue, vehicle utilization, and demand forecasting to support data-driven decision-making.
